

QOMO HiteVision to Debut New Product Launch at ISE 2009

Wixom, MI—January 13, 2009—**QOMO HiteVision** will be exhibiting the company's full product line at the Integrated Systems Europe (ISE) Convention February 3-5, 2009 in Amsterdam RAI, Netherlands. Come visit this exciting line-up of new products and features. **QOMO** is located in Hall 5, at Booth N100.

This year **QOMO HiteVision** is presenting three brand new products at ISE 2009. Not only is QOMO proud of its commitment to innovation, leadership and customer satisfaction, but it is dedicated to giving its customers the best products at the lowest possible prices.

The brand new **QOMO QD6100SX** uses a high resolution 2.0 megapixel CMOS imaging engine that gives it outstanding image quality, rich color reproduction, and strong video performance. The **QD6100SX** features a professional grade 10X Optical Zoom Lens and, in addition, boasts a complete Multi-Media Switching system, Video Scaler, and Projector Control System. Easily connect 2 MAC or PC computers (with audio), a DVD player, and a VCR directly to the **QD6100SX**, and only one VGA cable is needed to connect to a display device or projector- saving hundreds of Euros in installation costs.

The new, ultra portable **QOMO QPC30** incorporates several new design elements along with new imaging technology. The 24x total zoom, along with the rotating and fully articulated camera head offer maximum viewing flexibility and auto focus adjustment. It has a built-in LED light and the ability to store images in its internal memory- perfect for viewing later.

The **Electromagnetic QOMO Interactive Whiteboard** has many of the same features as QOMO's Infrared Whiteboard. It employs electromagnetic technology to allow you to write with the touch of a pen. It also includes **QOMO's Flow! Software**, and has the best feature of all- it is **COST EFFECTIVE**. The EM Whiteboard is durable and easy to clean. The speed and accuracy of the EM Hiteboard will impress even the most discerning eye.

QOMO HiteVision is a global manufacturer that specializes in providing the "**QOMO Interactive Classroom Solution.**" Today, the company manufactures products on a global scale- partnering with hundreds of dealers and integrators throughout the world. **QOMO's** global center for sales, marketing, and service is located in Wixom, Michigan in the greater Detroit area. Visit **QOMO HiteVision's** exhibit at ISE 2009 in Amsterdam February 3-5, 2009 in Hall 5 Booth N100. For more information, please check the company website at www.qomo.com or call at 1-866-990-QOMO.
