QOMO RELEASES NEW PORTABLE DOCUMENT CAMERA

WIXOM, Michigan--May 4, 2010--QOMO is introducing a new portable document camera, the QPC30. It has the same high quality image QOMO users have come to expect from desktop document cameras but in a portable, extremely light weight package at an affordable price! The QPC30 features a VGA output and USB 2.0 connector for image and video capturing. The included remote gives access to all of the QPC30's presentation features. The low energy consumption LED provides illumination in any condition. The camera mount has a fully articulated structure allowing for flexible movement and positioning. The QPC30 is the perfect balance between quality and portability making it ideal for transportation and presenting in almost any situation.

QOMO HiteVision is an energetic, innovative and visionary global manufacturer. We offer a diverse line of products including document cameras, interactive whiteboards and tablets, audience response systems, and digital signage.

With headquarters based in the US, QOMO HiteVision is dedicated to meeting you technology and presentation needs. QOMO derives from Qomolangma, the word for Mount Everest, the highest place on earth. We aspire to take our customers to new heights.

The future is clear and the summit attainable!
