

## QClick Software Feature Highlights

### Easy PowerPoint Slide Conversion

Easily convert existing PowerPoint slides into QClick questions.

### Select Participation Mode

Choose the audience participation form, by individual or by group.

### Select Activity Modes

Choose an activity mode. QClick provides nine different built-in activity modes, including Normal Quiz, Rush Quiz, Elimination, Vote/Inquiry, Grade, Ad-Lib Quiz, Hand-Raise, Roll call and Grouping.

### Status Bar

Indicates current page number/total page number, replied audience number/total audience number and additional information about the operation.

### Timer

Conduct timed quizzes and test. The countdown timer displays time remaining and sets off an alarm when the remaining time is less than 10 seconds. The receiver stops receiving audience responses when the time has run out.

### Answering Status Bar

Show the ID numbers of your audience (or group numbers) with different colors to indicate 'absent', 'response signal received', 'correct' or 'wrong' answer while displaying the results.

### Results and Reports

Instantly generates audience reports. QClick produces 11 statistical reports for each activity mode. Reports can be exported to html or viewed as text files.

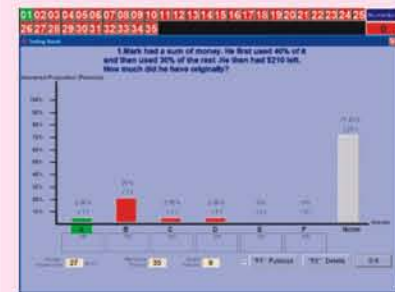

### Select Setting

Include Hardware Test, Remote ID Set, Data Manage, Student Set, Teacher Set, Subject Set and System Set. Student Set can be imported or exported from excel files.

### Select Query

Choose Query by class, group, individual and activity.

- Query by class: Includes Class Grade List, Class Answer Details, Class Roll Book and Class Activity Summary
- Query by person: Includes Participant Score Ledger, Student Answer Details and Student Roll Book.
- Query by activity: Includes Question Accuracy Query, Multiple-Choice Query, Multiple-Choice Query Histogram and Grade Details.

Place	ID NO	Name	Mark	Time
1	1	Student1	20	8
2	18	Student18	13	14
3	7	Student7	13	14
4	9	Student9	13	14
5	21	Student21	13	14
6	12	Student12	13	14
7	18	Student18	13	14
8	25	Student25	13	14
9	27	Student27	13	14
10	22	Student22	13	14
11	23	Student23	13	14
12	15	Student15	13	14
13	16	Student16	13	14
14	4	Student4	13	14

## QClick System Requirements

- One PC
- Intel Pentium II or higher processor
- One COM port 9 pin RS-232
- A Minimum of 64 MB RAM
- At least 100 MB of hard drive space for software
- Microsoft Windows Me/2000/xp
- Microsoft Office 2000 or higher
- Screen resolution of 800x600 or higher

# QClick

## Audience Response and Instructor Interaction

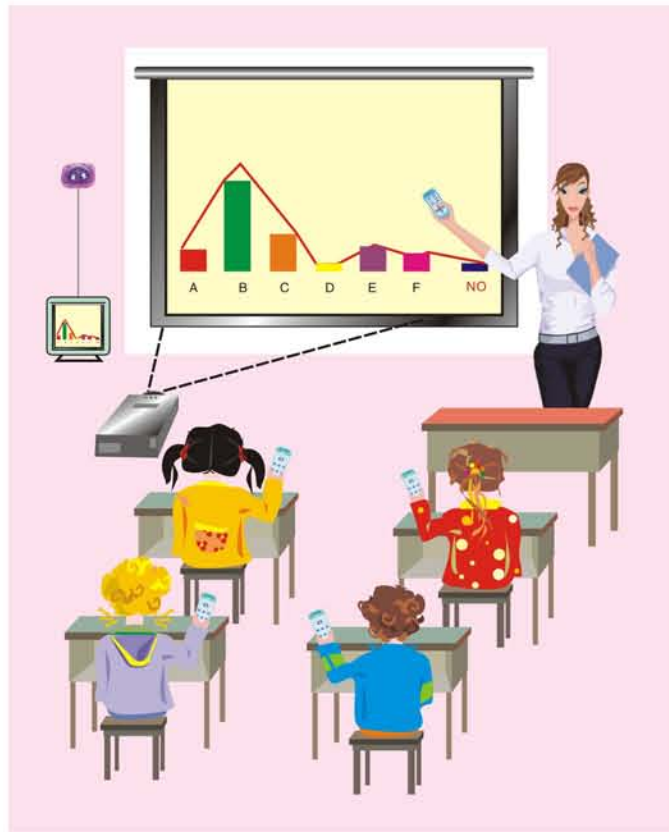

## What is QClick?

- QClick is the most powerful and cost effective Interactive Wireless Audience Response System on the market. Its uses range from traditional classroom settings to group meetings where instant feedback is critical.
- The QClick system completely integrates into Microsoft® PowerPoint, making it both easy to learn, and fun to use. QClick enriches your presentations and classroom curricula by eliciting and encouraging audience participation. Use it in a classroom, at a training, during a focus group, or in corporate meetings. With QClick's interactive PowerPoint software and the wireless audience remote keypad given to each participant, real-time feedback can be electronically collected at the simple **CLICK** of a button.

## What can QClick do for you?

- QClick ensures that your professional presentation is more interesting, entertaining, greatly interactive and informative.
- Instructors and presenters can display questions, surveys, opinion polls and games that allow everyone in the audience to select a response via their wireless remote keypad and transmit the data immediately to the presenter.
- Critical information can be accurately and efficiently gathered, ranked and communicated in a matter of seconds.
- QClick integrates 100% into Microsoft® PowerPoint – giving you the capability to author, deliver, assess and report without ever leaving PowerPoint. QClick makes your presentations and classroom curricula much more engaging.
- With QClick, your interactive PowerPoint® presentation can conduct on-the-spot assessments, gauge opinions of all participants, or that of an individual participant at any point during your presentation or training session.

### Audience Keypad (1–400 as needed)

Each audience Keypad has an ID number. The ID number can be set and reset by the instructor at any time. All responses are automatically collected within seconds.

- Lightweight and compact
- Dimensions: 4" L x 1.2" W x 0.6" H
- Durable, rugged case ensures maximum durability under extreme conditions
- 7 key user input
- Range for one receiver is approximately 50 feet

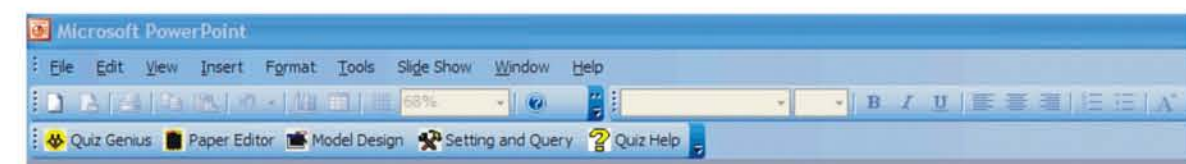

### Infrared Receiver Box (1–12 as needed)

The wireless infrared receiver box easily connects to your computer and receives the signals from the keypads.

## QClick Software Overview

- QClick software is Plug-in MS PowerPoint software. It is very easy to learn and use.
- QClick software has 4 programs: QClick Quiz Master, QClick Setting and Query, QClick Exam Paper Editor, and QClick Standard Exam.
- QClick Quiz Master is used to edit questions and conduct quizzes or games.
- QClick Setting and Query is used to test the hardware, set the audience remote ID number, and manage the information of the audience and active records (reports).
- QClick Standard Exam & Exam Editor is used for conducting self-paced multiple-choice examinations and editing.

## QClick Hardware Components

### Instructor Keypad (1)

Add convenience and style to your presentations with this all-in-one wireless presentation remote. Used by the instructor to control the course of activities, present PPT slides, and display reports and results, the instructor keypad even doubles as a laser pointer.

- Dimensions: 4" L x 1.2" W x 0.6" H
- Durable, rugged case ensures maximum durability under extreme conditions
- 11 key user input.
- Range for one receiver is approximately 50 feet.
