

# Classroom **tech toolkit**

about us

we make  
collaboration  
technology  
work the way  
you want it to.

**QOMO is a leading US brand and global manufacturer of educational and collaboration technology.**

We're the only partner with a full product offering for collaborative classrooms and conference rooms. After doing this for nearly 20 years, we understand how to work with everyone from CEOs and CTOs to district administrators and classroom teachers.

**QOMO focuses on creating user-friendly technologies that allow everyone to enjoy what they do best.**

**SOMETIMES ONE IS THE LOVELIEST NUMBER**

It's always easier dealing with fewer companies than many. Our products integrate with your existing technology to be easy to use and easy on the budget.

**THE RIGHT SIZE TO BE BOTH RELATABLE AND RELIABLE**

From Sales to Support, you'll never be treated as anything less than an actual human being. We're the right size to take care of you the right way, right away.

## k12

Teach your students in a way they understand,  
with easy-to-use classroom technology.

### **NO TECH FOR TECH'S SAKE**

Our team develops devices that enrich learning and enhance communication with your students, instead of distracting from your classroom goals. We understand that technology isn't the be-all-end-all of education, but a facilitator for human connection.

### **SIMPLY GOOD GEAR**

We balance an abundance of useful features with ease of use to reduce the learning curve as much as possible. QOMO manufactures educational technology with the specific needs of teachers in mind. We're always seeking your feedback to add more shortcuts, optimize your time, and make it simpler for you to hit the ground running.

### **SUPPORT THAT'S ACTUALLY SUPPORTIVE**

Your relationship with QOMO doesn't end after you make a purchase. We're as invested in the end-result of using our products as you are. Whether you need technical support or emotional support, we're here for you when you call (or email)!

### **AFFORDABLE AND ADAPTABLE**

We know the best way to save you money is to provide educational technology that works with whatever you already have. Our products are flexible, customizable, and come with preloaded software so you can use them right out of the box. They'll work with nearly any mobile device, application, or IT infrastructure already in use.

# higher ed

## Collaboration technology that takes lectures from passive to interactive.

### **ACTIVATE YOUR CLASS**

QOMO creates educational technology that establishes the best conditions for interactive learning, turning lectures into conversations. Our devices encourage students to actively engage, and make it easier for instructors to present and share information.

### **BIG IDEAS WITH A BIGGER IMPACT**

Go beyond the humble blackboard and reach the entire lecture hall with crystal clear visuals and amplified audio. Add new dimensions to your lectures with instant access to digital content, an audience response system, and wireless screencasting.

### **TEACH MORE EFFECTIVELY**

QOMO's educational technology helps you hold attention, gauge comprehension, and conserve your time and energy.

### **LESS TROUBLE AND LESS TROUBLESHOOTING**

Sometimes simpler is smarter. QOMO's technology integrates with your existing software, and it's designed to be easy to use, so you'll need fewer visits from IT. When you do get stuck, we're here to help.

sometimes one is the loveliest number.

It's always easier dealing with fewer companies than many.

QOMO is a US manufacturer of interactive technology from document cameras to interactive panels and monitors.

give better presentations.

**INTERACTIVE PODIUM**

The QOMO Podium lets you give presentations without having to look over your shoulder at the screen. Connect to two displays with **capacitive** finger touch.

share the delight in the details.

**DOCUMENT CAMERAS**

Document cameras that double as book scanners and web cameras for the hybrid classroom. Now with **4K** and **wireless** technology available.

engage, gather & review.

**AUDIENCE RESPONSE**

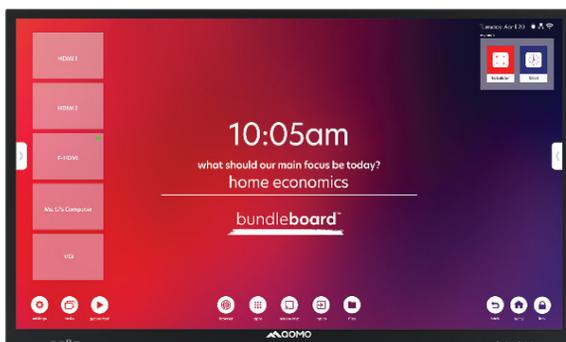

Create exams, pop quizzes and surveys. Get results instantly with guaranteed classroom participation and **no software fees**.

**BalanceBox®**

**MOUNTS AND MOBILE STANDS**

The **patented spring system** in Balance Box® mobile stands and mounts makes it easy and safe to move your panel up or down, allowing people of **all ages and heights to access the screen** in any way they need.

**BundleBoard G Series**

The BundleBoard G is the ultimate all-in-one interactive display board, **preloaded with software and apps** that will help you hit the ground running.

**ANDROID INTERFACE**

As easy to use as your smartphone or tablet.

**OVER-THE-AIR UPDATES**

Software updates to keep your tech up-to-date.

**4K ULTRA HD RESOLUTION**

A picture four times clearer than HD from far away.

INTERACTIVE PANEL

# software

QOMO panels come with software at no additional costs or hidden fees. Our panels also work with software you're already using.

Learn more about our agnostic software offering at [qomo.com/software](http://qomo.com/software).

Our products adapt to software you're already using!

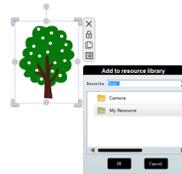

## Flow!Works Pro by QOMO

Included with purchase of BundleBoard G

QOMO's Flow!Works Pro is an interactive whiteboarding and annotation software. Communicate ideas easily with digital tools, such as rulers and a calculator.

choose from different pen types

insert graphics or use overlay annotation

split screen whiteboard mode

utilize different tools

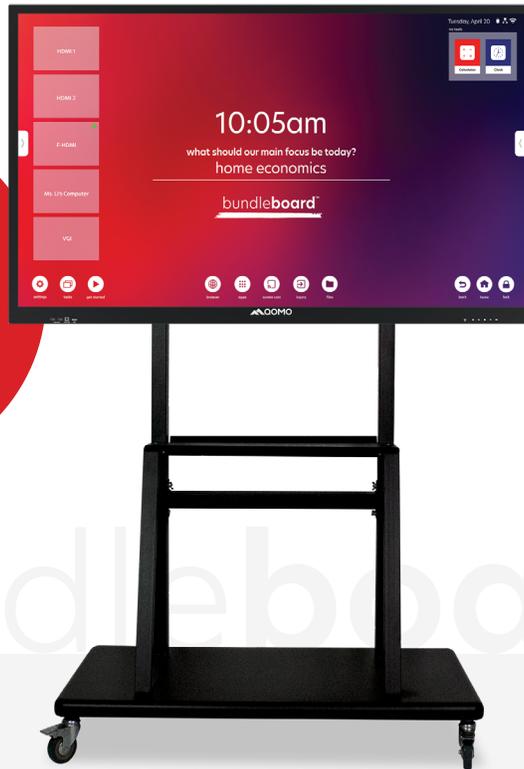

## Oktopus by our partners at Qwizdom

Included with purchase of BundleBoard G

Oktopus is a robust educational software with pre-made lesson plans, collaboration tools, and interactive multi-player games. Available in over 40 languages.

**fact!**  
I come with **OTA**  
firmware upgrades  
and no hidden  
software fees.

## a touch screen worth focusing on.

A collaboration panel that encourages communication and productivity.

The **BundleBoard G interactive panel**, allows presenters to set their main focus of the day on a personalized home screen. A variety of helpful tools makes for fun and engaging presentations.

See this panel at [qomo.com/product/bundleboard-g](https://qomo.com/product/bundleboard-g)

### How is the BundleBoard designed with you in mind?

#### **CUSTOMIZABLE & USER-FRIENDLY**

Change your wallpaper, input names, and focus of the day easily and intuitively. For additional help, a **Get Started guide** is available at all times on the front screen of your panel.

#### **REMOTE DEVICE MANAGEMENT**

Manage and control multiple BundleBoards from a central location. This makes it the **perfect solution for school districts and IT.**

#### **BUILT TO LAST**

Never worry with the BundleBoard's high quality **metal frame and tempered glass plus 4k clarity.** This robust display is built to last and made for any public space including classrooms, conference rooms, and lobbies.

**free training!**  
See our how-to  
videos at [qomo.com/  
instructional-videos.](https://qomo.com/instructional-videos)

## terrific for teamwork.

### COLLABORATION FEATURES

Up to **20 multi-touch points**, and with built-in **wireless screen sharing**, up to **4 different devices can cast** to the display at once.

## software that plays well with others.

### SOFTWARE AGNOSTIC

QOMO panels come with software at **no additional costs or hidden fees**. Our panels also work with software you're already using.

INTERACTIVE PANEL

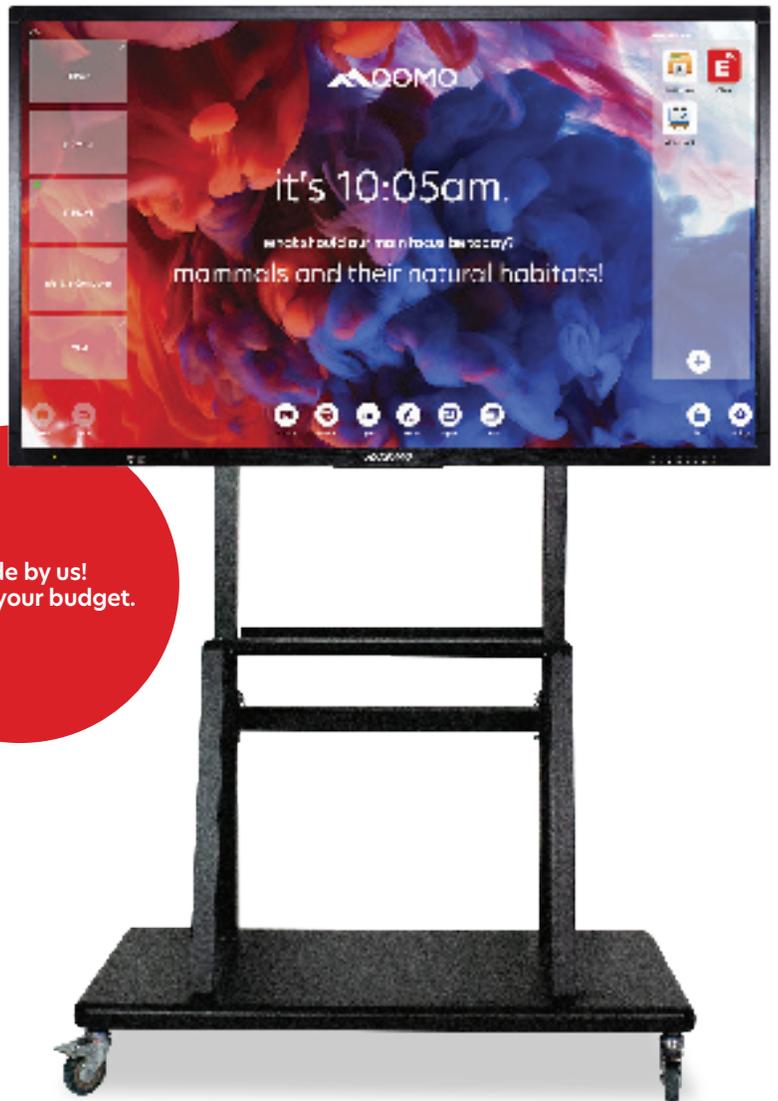

# mounts & stands

QOMO offers height-adjustable, mobile, and even motorized mounts and stands for the interactive displays.

Learn more about our mounts and stands at [qomo.com/accessories](http://qomo.com/accessories).

Made by us!  
Easy on your budget.

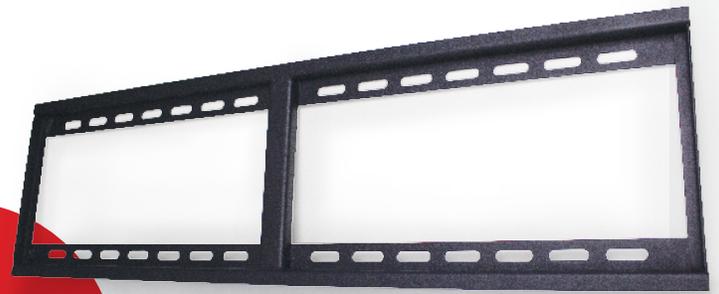

## Fixed Mobile Stand

We designed this **mobile stand to be easy on your budget** and perfect for your QOMO panel or any non-QOMO panel. It comes with a convenient shelf for your computer and a rectangular gear base to prevent tripping.

## Standard VESA Mount

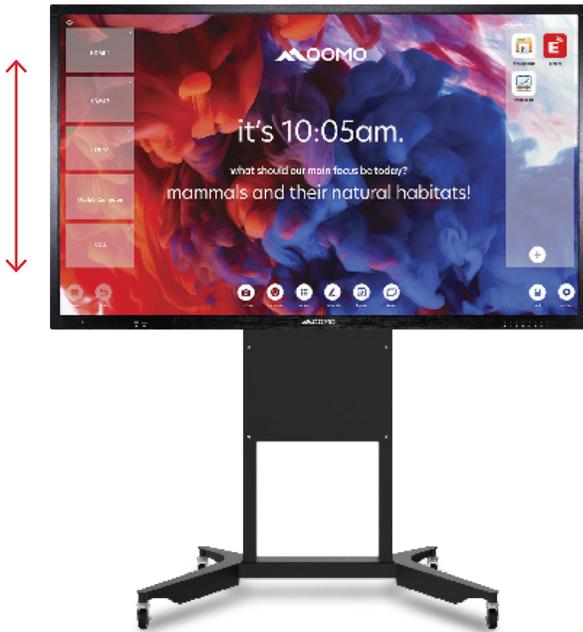

Our fixed wall mount comes with the BundleBoard G Series and **holds up to 300 pounds**, which is a lot of weight!

This mount is included with GOMO panels!

A PROUD PARTNER OF

# BalanceBox®

BalanceBox® stands are UL Certified!

## Height Adjustable Mobile Stand

The new **BalanceBox® 400** is a height adjustable stand for education. It has a patented spring system that neutralizes gravity, making it easy and safe to move your display up or down and allowing users of all ages and heights to access the screen.

## Motorized Stands

The **e-Box®** is a product range of high quality motorized display panel mounts. Make height adjustments to your display panel or tilt it back up to 90 degrees for a completely flat work surface with the push of a button.

podiums

## stay engaged while controlling your presentation.

### Control multiple displays without ever having to turn your back on the room.

An interactive podium allows you to maintain eye contact with your class, and the energy of your presentation, while giving you complete control over what's happening on the screen behind you. A podium can output your presentation to any display screen, including an interactive panel or projector.

#### **MAKE YOUR MARK**

With annotation software, you can use your interactive podium to write, draw, or annotate over anything you display to your audience. You can circle and draw arrows to point out important details in a video or photo, highlight passages of a text, or complete a math problem along with your algebra class (and save your work to share online with your students).

#### **VERSATILE AND ERGONOMIC**

On a desktop, it can be used as a writing tablet or an interactive computer monitor. With electromagnetic touch (EM) capabilities, you can write on the interactive podium with a stylus and rest your hands comfortably on the screen without interference.

**fact!**

I have multiple outputs to share your desktop to multiple displays for maximum visibility.

## keep your eyes on your audience.

### Conduct a presentation across multiple screens without turning your back.

The **QOMO PresenStation** is the ultimate presentation tool, giving you total control over what's displayed behind you while you maintain eye contact with your audience. Write, draw, and annotate over any screen with a touch pen that accurately simulates writing on paper.

### How can you use your PresenStation?

#### PROJECT IMAGES

The PresenStation is adaptable enough to **plug-and-play in any environment**, from compact meeting rooms to enormous lecture halls.

#### ANNOTATE ON THE SPOT

Using finger or pen, **write on anything displayed on the screen**. Draw or annotate over documents, web pages, videos, presentations, and more.

#### INSTANT DRAFTING TABLE

Adjust the PresenStation to the most comfortable writing angle, **between 90 degrees and almost completely flat**.

**watch!**

See our how-to videos at [qomo.com/instructional-videos](http://qomo.com/instructional-videos).

## showing off times two.

### TWO HDMI OUTPUTS

The PresenStation includes **2 HDMI outputs** for simultaneous projection to 2 displays, maximizing visibility and giving you the power to present in bigger spaces.

## ain't no mount it can't handle.

### UNIVERSAL VESA MOUNT

The back of the PresenStation has a **standard VESA pattern**, so you can use whatever kind of mount you like. Even one that rotates.

## like paper, but better.

### PRESSURE SENSITIVE HANDWRITING

The PresenStation uses **capacitive finger touch** as well as super **precise electromagnetic (EM) pen technology**. Draw faint or heavy lines, just like you would on real paper.

## a real team player.

### COMPATIBLE WITH EVERYTHING

The PresenStation is both **software- and hardware-agnostic**, so you can connect it to any computer and project whatever you like on any display.

Q O M O . C O M

A close-up photograph of a person's hand holding a black pen, poised to write on a document. The hand is positioned over a white document camera. The camera has a control panel with several buttons and a power button on the right side. A red apple is partially visible on the left edge of the frame. The background is softly blurred, showing a wooden desk and a white chair.

QPC80H2  
Gooseneck  
Document Camera

doc cams

## share the delight that's in the details.

### Give a close-up view of small objects and documents to an entire classroom.

Just one document camera can **save you from making thousands of paper copies per year**, and can also save you money on textbooks and other class materials.

#### **ZOOM IN ON OBJECTS AND SPECIMENS**

You can demonstrate everything from how a circuit board works to how to sew on a button using a document camera. Some doc cams even connect to microscopes, so you can show your class real-time videos or still photos of specimens and lead a discussion about your observations. Document cameras are perfect for literary analysis, with annotation software that allows you to highlight book passages and write notes directly on the text.

#### **RECORD AND SHARE LESSONS**

Document cameras that can record audio and video enables you to save, replay, and share a demonstration or even an entire lecture online. This sanity-saving tool can not only help you conserve your energy throughout the school day—it can also transform the way you teach online, and help absent students catch up.

**fact!**

I have a larger viewing area for textbooks and documents.

## get your docs ready for their close-up.

### A powerhouse smart document camera and media center all-in-one.

The powerful **QOMO CenterCam** can display documents, textbooks, and objects in crisp HD 1080p resolution, at 10x optical zoom and 10x digital zoom. This classroom here allows you to record and play back video and audio with the press of a button.

See this doc cam at [qomo.com/product/qd3900-h2](http://qomo.com/product/qd3900-h2)

### Where is the CenterCam most often used?

#### COURTROOMS

The CenterCam's powerful zoom, high resolution, and well-lit stage make it ideal for displaying documents and evidence to juries, making it a courtroom staple.

#### CLASSROOM EDUCATION

Zoom in on excerpts or share objects with your class. Demonstrate lessons live or play back a pre-recorded session.

#### CONFERENCE ROOMS

Share, mark up, and collaborate on documents with your team in real time.

**free training!**  
See our how-to videos at [qomo.com/instructional-videos](http://qomo.com/instructional-videos).

## ready to use on its own.

### NO COMPUTER REQUIRED

The CenterCam's **built-in internal memory built-in** allows you to save, replay, write on, and share captured still photos or video without the need for a connected computer. You can even insert an **SD card for additional storage**.

## lights, camera, action!

### BACKLIT STAGE WITH LED LAMPS

The CenterCam is one of the only flatbed document cameras to have a large, **backlit A4 viewing stage with two evenly distributed LED lamps**. With superb lighting and text optimization, documents and books are legible even from the back of the room.
