**fact!**
With **built-in WiFi**, up to **9 different devices can cast** to the display at once!

40 points of touch, 4K image, plus USB-C.

To put it simply: it's our most interactive touch panel, with the sharpest image yet.

We **increased the screen to 40 points of touch**, making **BundleBoard H2** more intuitive and interactive than ever — even when multiple hands interact with the panel. The **4K screen** delivers an **ultra-sharp image** worth focusing on, whether from up close or across the room. And this year, we made the screen even more responsive, adding **USB-C**, a powerful two-in-one wonder cord that **transmits display and touch simultaneously**.

pairs well with others.

The **BundleBoard H2** is the hub where QOMO collaboration technologies come together. **Wireless doc cams**, **interactive podiums**, and **conference cams** all pair seamlessly with the BundleBoard H2.

✓ What Sets Us Apart

designed with you in mind.

CUSTOMIZABLE HOME SCREEN
Change your wallpaper, input names, "my apps," and focus-of-the-day **easily and intuitively**. Access what you need directly from the home screen.

it's a tool chest.

64GB OF STORAGE
Easily contains all of your apps and content with 64GB of storage. Now with more tools to increase engagement, including **Instant Poll**, **Whiteboard**, **Screen Record**, **Timer/Countdown**, **Share to Cloud** and more.

rugged and built to last.

Never worry — BundleBoard's **high quality metal frame** and **tempered glass** can take it. Made for any public space, including classrooms, conference rooms, and lobbies.

QOMO®
powerfully simple
collaboration technology

ultra HD 4K resolution.

4 TIMES MORE RES THAN FULL HD

Sharper, crisper, clearer image — whether you're streaming live or watching a recording. From the front of the room all the way to the back, everyone sees the same clear image.

IT-friendly.

PARTNER WITH RADIX VISO MDM

IT managers have a comprehensive platform to centrally and easily manage touch panels and devices with remote access. **Push updates, display messages and alerts, and more.**
