 your very next meeting.

pan, tilt, zoom with the movement of the room, in 4K.

Radically improve your virtual conferences
 with 4K clarity and AI autoframe ePTZ.
 Minimally impact your budget.

The **ConferenceCam™ 006** brings electronic pan, tilt, zoom (**ePTZ**) technology to your virtual conferences. Get the power of traditional pan, tilt, zoom capabilities, including **lossless zoom**, without the budget-breaking costs. Combine ePTZ with ultra-sharp **4K resolution** for a new level of clarity and communication.

120° field of view

AI TRACKING

An **ultra-wide 120° field of view (FOV)** uses **AI to autoframe** and adjust to capture everyone in the room. **Zoom up to 10x** to narrow the focus on one person's show and tell. Use the remote to control detailed pans, tilts, or zooms.

conference compatible

Works with virtually all video conferencing platforms: Google Meet, Microsoft Teams, Zoom, Webex.

ultra HD 4K resolution.

4 TIMES MORE RES THAN FULL HD

Video so **sharp and clear** that you'll feel like you're in the same room – whether you're streaming live, or watching a recording. Even **zoom quality is lossless**, meaning that loss of resolution while zooming in is negligible.

sounds as if you're in the same room.

DUAL MICROPHONES

Built-in dual omni-directional mics with noise suppression technology tune out background noise. Hear each speaker clearly, even when multiple people join the conversation.
