3. After installation is complete, open the software and enter in 16-character license key and click "OK".

4. If your computer is connected to internet, the software will automatically activate. If download fails, follow one of these options:
  - a. **Activate via website**- Choose this option if another device or computer is active and can connect to the internet
  - b. **Activate via phone**- This option will call Qwizdom's UK office and to activate over the phone. You will need the 16-digit code.
  - c. **Activate via email**- This option will email Qwizdom directly to activate the software.
5. Your Oktopus software should now be downloaded. To activate your Blend account, click the tools icon shown below and select "Log In To My Account".

- A pop up will appear prompting to log into your account. Click on “Not registered?”

- A new window will pop up. Enter in your information as prompted and select “Yes” to the following question and enter in the same 16-character license key.

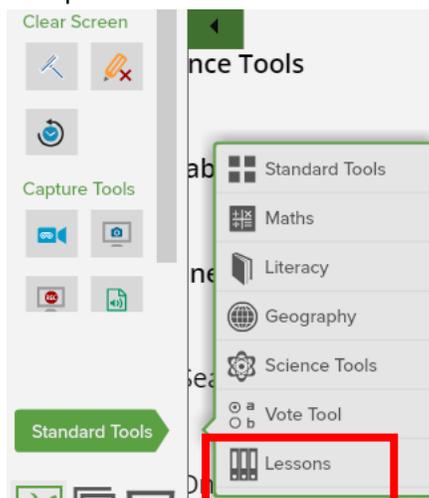

**Do you have a Product Key for Premium Lessons or Blend?**

**Premium Lessons or Blend Product Key.**

- You should now have access to the online lesson plans and all the features for Oktopus Blend. Under “Standard Tools”, there will be an option to access the thousands of built in lessons that Oktopus offers!

- Any additional questions regarding using the software can be found on the online user manual accessed at <http://qwizdomoktopus.com/user-guide/>
