

fact!

I have multiple outputs to share your desktop to multiple displays for maximum visibility.

keep your eyes on your audience.

Conduct a presentation across multiple screens without turning your back.

The **QOMO PresenStation** is the ultimate presentation tool, giving you total control over what's displayed behind you while you maintain eye contact with your audience. Write, draw, and annotate over any screen with a touch pen that accurately simulates writing on paper.

See this podium at qomo.com/product/qit600-f2-podium.

How can you use your PresenStation?

PROJECT IMAGES

The PresenStation is adaptable enough to **plug-and-play in any environment**, from compact meeting rooms to enormous lecture halls.

ANNOTATE ON THE SPOT

You can use the pen to **write on anything displayed on the screen**. Draw or annotate over documents, web pages, videos, presentations, and more.

INSTANT DRAFTING TABLE

Adjust the PresenStation to the most comfortable writing angle, **between 90 degrees and almost completely flat**.

watch!

See our how-to videos at qomo.com/instructional-videos.

showing off times two.

TWO HDMI OUTPUTS

The PresenStation includes **2 HDMI outputs** for simultaneous projection to 2 displays, maximizing visibility and giving you the power to present in bigger spaces.

ain't no mount it can't handle.

UNIVERSAL VESA MOUNT

The back of the PresenStation has a **standard VESA pattern**, so you can use whatever kind of mount you like. Even one that rotates.

like paper, but better.

PRESSURE SENSITIVE HANDWRITING

The PresenStation's pen uses **point-by-point electromagnetic (EM) technology**. Draw faint or heavy lines, just like you would on real paper.

a real team player.

COMPATIBLE WITH EVERYTHING

The PresenStation is both **software- and hardware-agnostic**, so you can connect it to any computer and project whatever you like on any display.

Panel Type	Active-Matrix Liquid Crystal Display (TFT)	Ports
