battery-free pen:
Never needs charging!
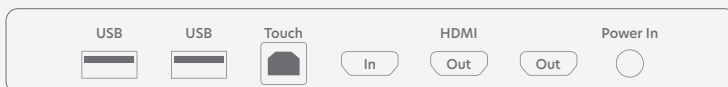

stay engaged while controlling your presentation.

Turn any computer into a 21.5" touch screen.

Complete control from one screen, so your eyes can stay on your audience. **Make any presentation more interactive and adaptive.** Write, draw, and annotate directly with your fingers, or with the **precise EM pen**. Control multiple displays without ever turning your back to the audience. Annotate over any screen image or video with **QOMO Flow!Works Pro.**

more connection ports with QOMO.

We added **2 HDMI outputs for simultaneous projecting, and 2 USB extenders** — allowing you to bring everything together on one screen.

USB	USB	Touch		HDMI		Power In
			In	Out	Out	

a real team player.

Universally compatible with all OS. **No custom software required.** Connects to any device.

✓ What Sets Us Apart

DUAL TOUCH TECHNOLOGY
Write, draw, and **annotate** with a precise tough pen or your fingers on the anti-glare, anti-fingerprint screen.

with a pen
PRESSURE SENSITIVE TOUCH
Precise EM technology allows you to draw heavy or faint lines — just like a pen on paper. Even better, the battery-free pen never needs charging.

with your finger
INTUITIVE CAPACITIVE TOUCH
Multi-touch for fingertips makes it easy and intuitive to use — just like using your smartphone. And, unique to QOMO, this feature can be turned on/off with the touch of a button.

⩕ QOMO®

powerfully simple
collaboration technology

no mount it can't handle.
UNIVERSAL VESA MOUNT
The back of the PresenStation has a **standard VESA pattern**. Attach to virtually any 3rd-party mount, directly to your podium or desk.

instant drafting table.
ADJUSTABLE ANGLES—FROM FLAT TO UPRIGHT
Adjust the PresenStation to the most comfortable writing angle, **between 90 degrees and almost completely flat**, allowing nearly limitless positioning.
