	Menus	Go to the OSD menu.
	Power	Press and hold for 3 seconds to power off and short press to power on.

How to connect your device

1) Connect the computer to the HDMI IN port on the tablet using an HDMI cable.
2) Next enable touch control by connecting the computer to the touch port using a USB A-B cable. The USB Type-B (square port) connects to the tablet.
3) If your device has a full-featured C port, you can connect it to the device's type c port with a single cable for video, touch, writing, and data connectivity.
4) To share the monitor screen to large format displays and projectors, connect the HDMI-OUT ports on the tablet to the HDMI-IN ports on your desired displays.
5) Connect the power adapter to the tablet and plug it into a wall port to turn the tablet on.
6) Use the USB extender ports to connect a mouse, keyboard, or thumb drives.
