

The Laptop/Keyboard Tray (481A73) for the Mobile Stand Mix® (481A71xxx - all versions) can be mounted at the front* or back of the mobile stand using the M6 screw inserts (* front mounting is only possible when the panel is installed at fixed height). The hardware needed for mounting is supplied with the product. The Laptop/Keyboard Tray will accommodate most laptops up to 17" and has a load capacity of 6 kg / 13.2 lbs. Installation is quick and easy. The tray is fixed securely and provides a safe and solid base for your laptop computer or keyboard.

The Mobile Stand Mix® can be used in combination with the BalanceBox® 400 height adjustable mount system or with our Universal VESA Bracket (481A70), mounted directly on the stand (fixed height).

The Mobile Stand Mix® is suitable for panels up to 86" diagonal.
