

The Wheels Upgrade (481A81) is the finishing touch to the Mobile Stand Mix® (481A71xxx - all versions). The upgrade consists of 4 black thermoplastic swivel casters, with a diameter of 100 mm / 4", two of which have a brake.

The material of the heavy duty wheels, in combination with the larger diameter, makes the Mobile Stand Mix® run quieter and smoother, especially on carpet. The wheels are non-marking, and the black color suits the design and styling of the Mobile Stand Mix® perfectly. Installation is quick and easy.

The Wheels Upgrade package comes with easy mounting click-in pins for all 4 wheels, which makes that no tools are required for mounting the wheels.
